### **DETAILED ACTION**

Preliminary Amendment filed 03/30/2004 has been overlooked, and the restriction requirement mailed 12/29/2005 addressed the wrong set of claims. Consequently, the restriction requirement mailed 12/29/2005 is vacated and the following election of species requirement is issued. The period to respond is re-started.

Claims 1-24 are canceled. Claims 25-36 are added.

### **Species Requirement**

Election of species should be required prior to a search on the merits in all applications containing both species claims and generic or Markush claims.(MPEP 808.01(a))

The claims of Group are individually or dependently directed to a plurality of the following disclosed patentably distinct species of the components of the claimed conjugate:

- A.     Analog of substance P – as in claims 26,27;
- B.     Polypeptides which inhibit protein synthesis - as in claims 29-35

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

To be complete, a response to the election of species requirement should include a proper election along with a listing of all claims readable thereon, including any claims subsequently added. MPEP 809.02(a).
